

Quality Policy Statement

Matsuura Machinery Ltd (MML) is recognised as a market leader in the field of unmanned multi-pallet and multi-tasking CNC machine tools, 3D additive printers and associated manufacturing process solutions. MML aims to supply their equipment together with an after sales service that meets client requirements and expectations using highly skilled personnel, quality components and the latest technology.

This is achieved through our Quality Management System that meets the requirements of ISO 9001:2015 and also ensures our business processes are carefully monitored, measured and controlled to promote continual improvement in our business performance.

The company is also committed to comply with all relevant statutory legal and other requirements.

In accordance with best management practice particular attention is paid to the provision of a safe and healthy workplace, the reduction of our environmental impact, the training and development of our staff, increasing our client satisfaction and the growth of mutually beneficial supplier relationships.

This policy is reviewed periodically at our management review meetings and is the basis for our annual quality objectives. These are communicated to all staff to promote both their involvement and commitment to the improvement of our business.
